

# Sustaining Sun Quality Health Network through linkage with health financing schemes

Socheat Chi, Executive Director, PSI Cambodia

# Roadmap to move SQHN toward sustainability

- Using improved business approaches as incentive
- Access to micro loan for business expansion
- From FP only to a wide range of services: including maternal child health, malaria testing and treatment – integrated service delivery
- Quality assurance/improvement → continuous medical education
- Data collection, reporting and link with national HMIS
- Accreditation
- Link to existing health financing scheme: National Social Security Fund, Health Equity Fund etc - will require advocacy work
- Pay for service/support - membership fees

# Areas of Focus

*I want to put more investment because my clinic still has gaps and not yet attractive, that's why I have few clients, and I want to serve more women.....*

- Business training – financial/ HR management and marketing
- Connect SF network to micro financial institutions
- Expand services to fit with health financing schemes
- Quality improvement to get accreditation
- Linkage with the NSSF for a specific target group: garment factory workers

THANK  
YOU
